[Avast Pro Antivirus 8 Internet Security 8 Avast Premier 8](#)

The screenshot shows the Avast Settings window for Avast Premier 8. The window title is "Settings" and it includes a search bar in the top right corner. The left sidebar contains navigation options: Status, General, Protection, Privacy, and Performance. The "Protection" section is expanded, showing sub-options: Core Shields, Virus Chest, Ransomware Shield, Firewall, Real Site, and Sandbox. The "Core Shields" option is selected and highlighted with a purple bar, and a red circle with the number "1" is placed next to it. The main content area is titled "What to do with:" and has three tabs: "Viruses", "Potentially unwanted programs", and "Archives". The "Viruses" tab is active, displaying a dialog box titled "Select action to be performed when a virus is found:". This dialog box contains three radio button options: "Fix automatically" (which is selected and marked as "Recommended" with a green star), "Ask", and "Do nothing". Below the dialog box, five numbered callouts (red circles with numbers 2-6) point to specific settings: 2 points to "Enable CyberCapture Technology" (checked), 3 points to "Enable Hardened Mode" (unchecked), 4 points to "Enable Rootkit detection" (checked), and 5 points to "Enable Exploit detection" (checked). The "Always block a threat" option is also visible but not pointed to by a callout.
